PROFILE

Ambitious frontend developer transitioning to a full-stack role. Experienced in Angular, TypeScript, and mobile-first design, with a growing proficiency in Node.js and backend development.

Passionate about staying on top of the latest tech trends, constantly learning and experimenting with new technologies to remain ahead in a rapidly evolving industry. Excels in problem-solving, collaboration, and self-management in dynamic projects.

EMPLOYMENT HISTORY

Apr 2022 — Present

Frontend Developer, Medlo

Led the development of a new internal staffing module using Angular and TypeScript, working closely with the backend (Node.js) team to ensure seamless integration. Converted a section of the platform into a mobile-first design, improving the app's accessibility and user experience.

Sep 2018 — Sep 2021

Owner, PrimoThePlug

Created and run my own e-shop. Handled stock and price changes daily. Was operating 3 Social Media pages for the store with daily content. Utilizing social media marketing that led to recognition by Greece's top rapper, resulting in a merger opportunity. Managed digital strategy, daily operations, and partnerships.

EDUCATION

HTML & CSS, Udemy

Learned the fundamentals of HTML and CSS first. Then learned about CSS layouts such as Flexbox and CSS Grid. Also learned about components, web design rules and layout patterns. Lastly learned how to implement Responsive Designs.

JavaScript Course, Udemy

Learned the fundamentals of JavaScript first such as Data Structures, Modern Operators, Functions and Arrays. Then learned Advanced DOM Manipulation and Events. Took a deep dive into Object-Oriented Programming and Asynchronous JavaScript. Also learned about Modules and Tooling.
